

COURSE CERTIFICATE

This is to certify that
Nadiia Diachenko
has successfully completed the course

*“NBIA Summer School on
Gravitational Wave Astrophysics”*

at the University of Copenhagen.

GENERAL CONTENT

The course consisted of five days of planned activities, totaling 38 hours of active student participation. In addition, the students prepared for the lectures and made a short presentation of their own work the first day, totaling 30 hours of preparation. There were seventeen hour-long lectures on a broad variety of subjects covering different aspects of gravitational wave astrophysics. The program was complemented with three comprehensive exercise tutorials, each lasting a full afternoon, and three discussion sessions. Throughout the school the active participation of each of the students was followed and assessed properly.

DURATION

From 02/08/2021 to 06/08/2021

2.5 ECTS (European Credit Transfer System)

COURSE ORGANISER:

Martin E. Pessah
Professor MSO
Niels Bohr Institute
